

# MACIEK PYSZ TRIO

Established in 2010, Maciek Pysz's fabulous trio sees the guitarist joined by two supremely creative and empathetic musicians, drummer Asaf Sirkis and double bassist Yuri Goloubev.

The trio plays Pysz's original compositions with flair, passion and a joyfulness of execution that is both sensuous and stimulating. But there is also real heart to the music, a delicacy of touch and beautiful clarity of phrasing which captivates audiences. The tunes combine the complex twists and turns of contemporary small-group jazz playing with the rich narrative textures of world and folk music.

The self-taught Pysz moved to the UK in 2003, rapidly established his reputation and toured in the USA and Europe with his own projects and as a sideman. His virtuosity enabled him to obtain funding from the Jazz Services Recording Support Scheme to record his debut album 'Insight' at Artesuono studio in Italy in February 2013 with ECM's sound engineer Stefano Amerio. The album received high praise from critics around the world. "An album that announces a major new presence on the jazz guitar scene" Stephen Graham, Marlbank.

Maciek has played at Ronnie Scott's, Pizza Express Jazz Club, The Forge, La Note Bleue, Blue Note Poznan, London Jazz Festival, Hull Jazz Festival and Ealing Jazz Festival to name but a few venues and festivals.

# MACIEK PYSZ TRIO
